

Wade DeGottardi

CONTACT INFORMATION	Joint Quantum Institute Room 2253 Computer and Space Sciences Building, Bldg. 224 University of Maryland College Park, MD 20742 Citizenship: U.S.A.	<i>e-mail:</i> wdegott@umd.edu <i>website:</i> www.msdl.anl.gov/degottardi
RESEARCH INTERESTS	Condensed matter theory, low-dimensional systems, strongly correlated systems, topological order, and topological quantum computation.	
EDUCATION	University of Illinois at Urbana-Champaign , Urbana, IL Ph.D in Physics Thesis: “Strong correlations and topological order in one-dimensional systems” Advisor: Smitha Vishveshwara	2006-2012
	Stanford University , Stanford, CA B.S. Physics	1994-1998
HONORS, AWARDS, AND GRANTS	Co-PI, 2016-095-N0 “Probing the Bulk Transport Properties of Systems of Majoranas,” (Argonne Competitive Grants Project) John Bardeen Award, 2014. Lead PI, 2015-095-N0 “Probing the Bulk Transport Properties of Systems of Majoranas,” co-PI’s K. A. Matveev and W.-K. Kwok. (Argonne Competitive Grants Project) Lead PI, 2014-095-N0 “Probing the Bulk Transport Properties of Systems of Majoranas,” co-PI’s K. A. Matveev and W.-K. Kwok. (Argonne Competitive Grants Project) Scott Anderson Award, Spring 2011. Excellence in Teaching Award, Fall, Spring 2007 and Fall 2008. Graduate Assistance in Areas of National Need (GAANN) Fellowship, 2006-7.	
EMPLOYMENT HISTORY	Postdoctoral Researcher , Joint Quantum Institute, University of Maryland	2015-present
	Postdoctoral Scientist , Argonne National Laboratory	2012-2015
	Graduate Student , University of Illinois	2007-2012
	Master Teacher , Kaplan Test Prep	2003-2006
	Academic Manager , Kaplan Test Prep	1998-2006

MANUSCRIPTS IN PREPARATION

1. W. DeGottardi, Q.-L. Meng, S. Vishveshwara, and G. Baym, “Radiation from neutron star surfaces in high magnetic fields.”
2. L. Fang, J. Im, W. DeGottardi, Y. Jia, A. Glatz, K. Matveev, M. Kanatzidis, W.-K. Kwok, G. W. Crabtree, “Unusually large spin-orbit coupling strength in graphene-like 2D Material [Pb₂BiS₃][AuTe₂].”

PROFESSIONAL ACTIVITIES

Carbon nanotubes as tunable Luttinger liquids, Meeting of the American Physical Society, New Orleans, LA. March 2008. (Contributed talk)

Charge fractionalization in a mesoscopic ring, Meeting of the American Physical Society, Portland, OR. March 2010. (Contributed talk)

Charge fractionalization in a mesoscopic ring, 5th Windsor Summer School, Windsor, England. August 2010. (Contributed talk)

Majorana modes in a spin-ladder system, Meeting of the American Physical Society, Dallas, TX. March 2011. (Contributed talk)

Indian Institute of Science, Physics Department, Bangalore, India. June and July 2011. (Visitor)

Majorana modes in a 1D superconducting wire subject to quasiperiodic and disordered potentials, Argonne National Laboratory, Materials Science Division, Argonne, IL. January, 2012. (Invited Talk)

Majorana modes in a 1D superconducting wire subject to quasiperiodic and disordered potentials, Meeting of the American Physical Society, Boston, MA. March, March 2012. (Contributed talk)

Majorana fermions in 1D superconducting wires subject to disorder and other spatial inhomogeneities, Meeting of the American Physical Society, Baltimore, March 2013. (Contributed talk)

Majorana fermions and other exotic quasiparticles in one-dimensional systems, Northwestern University, April 2013. (Invited talk)

Topological phases of non-abelian anyonic chains, Argonne National Laboratory, Argonne, January 2014. (Invited talk)

Topological phases of non-abelian anyonic chains, Meeting of the American Physical Society, Denver, March 2014. (Contributed talk)

Transport in low-dimensional quantum systems: a hydrodynamical approach, Argonne National Laboratory, Argonne, April 2014. (Invited talk).

Transport in inhomogeneous Luttinger liquids, Free University of Berlin, Berlin, February 2015. (Invited talk).

Transport in inhomogeneous Luttinger liquids, University of Illinois, Urbana, February 2015. (Invited talk).

The Luttinger liquid paradigm and beyond, University of Pittsburgh, February 2015 (Invited talk).

Transport in inhomogeneous Luttinger liquids, Meeting of the American Physical Society, San Antonio, March 2015. (Contributed Talk).

Topological 1D Systems, University of Maryland, April 2015 (Invited talk).

A Physicist Talks Lasers, Gravity, and Free Fall, Authors Combat Academy, Nashville, April 2015 (Invited Talk).

Topological Insulating Phases of Interacting Anyons, Gordon Conference, Hong Kong, August 2015 (Poster).

Many-Body Physics with Light, Conference Participant, KITP, December 2015.

Referee for *Physical Review Letters*, *Physical Review B*, *Physical Review E*, and *Science Reports*.

TEACHING
EXPERIENCE

Teaching Assistant and Instructor, University of Illinois **2007-2012**
Presentation of lectures, supervision of group work. Wrote homework and discussion problems and solutions.

Subject Matter Expert, Kaplan University **2011**
Designed an introductory course (SC 165 Physics, Mechanics). Authored syllabus, course outline, teaching guide, and exams.

Instructor	Physics 199 M	Mechanics Enrichment	Spring 2007
Teaching Assistant	Physics 212	Electricity & Magnetism	Fall 2007
Teaching Assistant	Physics 486-7	Quantum Mechanics I and II	Fall 2008
Teaching Assistant	Physics 598 QM	Special Topics in Condensed Matter	Spring 2011

Academic Manager, Master Teacher, Kaplan Test Prep **1998-2006**

Taught Kaplan LSAT, GRE, GMAT, MCAT, SAT and TOEFL courses. Hired, trained, and managed teachers for the Southern California area in LSAT, GRE, GMAT, MCAT, NCLEX, and SAT courses. Coauthored Kaplan MCAT, GRE, GMAT, and LSAT curriculum. Authored MCAT physics and general chemistry lessons as well as physics problems in Kaplan's *High Yield Problem Solving Book*. Co-authored Kaplan's SAT II Literature course and assisted in α - and β -testing of the course.

Toyon Hall Math and Physics Resident Tutor, Stanford University **1996-7**

Directed weekly tutoring sessions in large 4-class dorm for calculus, linear algebra, abstract algebra, mechanics, electricity and magnetism and modern physics courses.
